ZENEN TEKSTİL

Zenen's story began in Istanbul in 1986 to be a leader of the women's apparel industry. Back then, the company has evolved into one of the major women garment manufacturers in Turkey. As Zenen, it produces its customers' collections with high quality production and customer satisfaction. Since 1999 and 2008 respectively, the company has also gained an important place in the women's textile sector with the Shendel and Sophene brands. For more than 20 years, our motto has never been changed, "Prepare for the Future's Production".

Our Sedex certified company has a production capacity of 300.000 to 500.000 a year with its 250 employees in its 6000 square meters factory and management area by handling the entire production process from sourcing fabric to finished garment.

Our Mission

Our mission is to increase productivity through gender equality, sustainability, and self-respect.

Our Products

We professionalized in the women's woven garments including dresses, skirts, jackets, coats, pullovers, shirts, blouses, suits, blazers, sweatshirts, trousers, and shorts. Our team develops Shendel and Sophene's premium collections as well as world-renowned brands' products and services.

Quality is Essential

The most important principle that we never abandon is of high quality. That is the reason why our customers and clients from all over the world still sustain long live business relationships with us. Sophene and Shendel offer a wide variety of collections, supported by strong colors, special fabrics, and unique accessories, ranging from sophisticated high-end details to easygoing casual wear. Furthermore, Zenen's factory is always opened for clients who want to visit and observe the production processes.
